Our Divine Guidance

A Channeled Message from The Great Council of Light

3/1/23

"Yes we are here Dear One with a message for your healers and practitioners. There is a rising up for humankind. We are asking for you as healers and practitioners to rise up along with humankind. Stepping into your Divinely anointed talents and abilities. Not being one of mind, but being one of Spirit. Creating new waves of healing for the masses that will help stabilize the planet and create peace and change. For it is YOU that are among the chosen. Now it is in your creation and WILL to step into the power that you have had for lifetimes. For now you will be called for the biggest witness of faith and love you have ever been asked to do. For now it is in your best interest and the best interest of humankind to create a place of support and healing. For you will be interacting with the masses. You will be at the core of a healing center. A healing place where one will come to find refuge and peace. You will be that catalyst for healing. You are working alongside Pamela and Lisa to create divine ways and structures for YOUR community. Yes, we say YOUR community for it is with you ALL in this time and place that you are knitting the blanket of hope and change. You are all finding each other and creating new ways of business. You will share in the peaceful ways of economy between yourselves. Nourishing yourselves and your community. Creating a global economy for one another. You will not perish or waiver with the changes that are coming to your planet for it is here that you will flourish. You will be in interceptors of changes. Catching souls that land and nurturing them back to themselves. For it is a glorious place indeed You will all witness what you will have created together and wonder in the acknowledgement that you made it so. You worked in unison to create this place. Be it, live it, breathe it and make it so Dear Ones. You have our commitment and guidance for this is a manifest project."

Cornerstones

Healers & Practitioners

Live the Call

Healers & Practitioners have the opportunity to inspire and guide each other and the community on their journeys of self-discovery and transformation. This will create a community of empowered individuals living their lives with purpose and passion through regular communication within the portal.

Healing Healers

We provide a space for soul-aligned professionals to connect and support each other, facilitating consultations, self-healing, and discussions while promoting collaboration, exploration of different modalities, and a positive atmosphere for the exchange of healing energy. You are a part of the Spirit Calling community, supporting your growth is as important to us as supporting our members.

Creating Connection

We request that our soul-aligned professionals invite their communities to connect with us at Spirit Calling. This creates a powerful network by collaborating and sharing expertise to make a positive difference in the world.

Circular Economy

Our circular economy model encourages practitioners to showcase their talents and inspire community members to work with them. Spirit Calling provides a platform for practitioners to produce and sell their offerings. Our shared revenue model supports the growth of practitioners' practices and our platform, allowing expertise to be shared among practitioners and the community.

Why We Chose You

We have chosen you as a valuable member of our Healers & Practitioners Group. We recognize your exceptional skills and unwavering commitment to serving humanity and creating a more peaceful world. We are confident that your contributions will positively impact our community and we look forward to working with you.
